

Residents:

Planning to take both the AOBFP cognitive and practical initial certification exams? The ACOFP Foundation will award up to \$1,400 for exam and travel fees.

In order to relieve some of the financial burden for residents entering the field, the ACOFP Foundation is pleased to announce its Initial Certification Grant program.

Submit your application for the Fall 2022 or Spring 2023 cycle by February 28, 2023.

Eligibility Requirements

To be eligible for this opportunity, you must be a third-year resident member of ACOFP planning to sit for both the American Osteopathic Board of Family Physicians written (cognitive) exam and the OMT Performance Exam (practical). Residents participating in either the AOBFP Early Entry Initial Certification pathway or the AOBFP traditional initial certification pathway are encouraged to apply.

Grants may be awarded to residents who receive partial financial support from their programs.
